

EAST TEXAS BY NATURE

BLOCK 10 PINEY WOODS

This block is fairly easy. Take your time cutting your tree tops as the 'texture' of the foliage relies on the irregular shapes. The tree trunks will be put on the block first, followed by the tree tops. I have numbered the tops in the order you are to place them down. Have some fun choosing your fabrics for the foliage, let the print of the fabric do the work for you. You are welcome to add more trees if you like, or some ferns to the forest floor.....explore your creativity. You can also use a deer or rabbit from the previous blocks. Have fun, we are almost done with your quilt top. Next month will be the sashing and borders.
